Q.1 If a mirror is placed on the line AB, then which of the answer figures is the right image of the given figure?

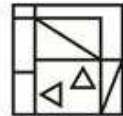

Ans

☐ A.

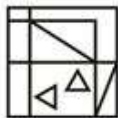

☒ B.

☐ C.

☐ D.

AVNISH SHARMA

Question ID : 1034357400

Q.2 In the following question, select the related letter pair from the given alternatives.
TVF : ZQL :: ?

Ans ☐ A. QNS : WIZ

☐ B. LDM : RXS

☒ C. PLW : VGC

☐ D. RGT : XAZ

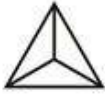

Question ID : 1034357386

Q.3 Which figure is similar to the given figures?

Ans

☒ A.

☒ B.

☒ C.

☒ D.

Question ID : 1034357399

Q.4 If 'A + B' means 'A is the brother of B', 'A @ B' means 'A is the father of B', 'A # B' means 'A is the sister of B', 'A \$ B' means 'A is the wife of B', 'A * B' means 'A is the mother of B', then which of the following statement is correct for the given expression?

$P * Q + R \# S + T \$ U$

I. P is the mother-in-law of U.

II. U is the brother of R.

Ans ☒ A. Neither I nor II

☒ B. Both I and II

☒ C. Only I

☒ D. Only II

Q.6 In the following question, select the related words from the given alternatives.
Mass : Kilogram :: Force : ?

- Ans ☒ A. Joule
☒ B. Pascal
☒ C. Newton
☒ D. Watt

Question ID : 1034357385

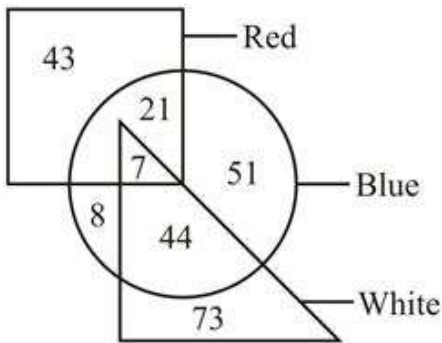

Q.7 In the following question, select the missing number from the given series.
5.5, 11, 17.5, 25, 33.5, 43, ?

- Ans ☒ A. 51.5
☒ B. 52.5
☒ C. 54.5
☒ D. 53.5

Question ID : 1034357393

Q.8 Based on the given venn diagram, which of the following statement(s) is/are correct?

- I. The number of blue which are only red is 21.
II. The number of white which are red is 7.

AVNISH SHARMA

- Ans ☒ A. Only II
☒ B. Both I and II
☒ C. Neither I nor II
☒ D. Only I

Question ID : 1034357396

Q.9 In the following question, select the odd word from the given alternatives.

- Ans ☒ A. Carrom
☒ B. Table Tennis
☒ C. Chess
☒ D. Cricket

Question ID : 1034357384

Q.10 In the following question below are given some statements followed by some conclusions based on those statements. Taking the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusion logically follows the given statements.

Statements:

I. All P are Q.

II. No Q is F.

Conclusions:

I. No P is F.

II. No F is Q.

- Ans ☒ A. Only conclusion II follows
- ☒ B. Neither conclusion follows
- ☒ C. Both conclusion I and II follows
- ☒ D. Only conclusion I follows

Question ID : 1034357391

Q.11 Seven boxes A, B, C, D, E, F and G are kept one above the other (not necessarily in the same order). Two boxes are kept between A and D. Three boxes are kept between D and F. C is kept just above G. D is kept just below E. G is kept above A. B is kept below E. Which of the following statement is correct?

I. B is kept at the bottom.

II. C is kept at the top.

- Ans ☒ A. Only I
- ☒ B. Both I and II
- ☒ C. Neither I nor II
- ☒ D. Only II

Passionate

- Ans ☒ A. Folly
☒ B. Figure
☒ C. Fervent
☒ D. Fallacy

Question ID : 1034357450

Comprehension:

Read the following information carefully and answer the given questions.

Octopuses are famous for their alien-like abilities, from regrowing damaged arms to changing their skin colour and texture. They use this colour-shifting power to camouflage and, interestingly, as a strange visual language to talk to other octopuses.

A little known fact is they actually belong to a category of animals (phylum) called Mollusca, which is largely made up of snails. Yep, octopuses are like souped-up snails who lost their shells and grew a rather large brain. The greatest thing about them is their intelligence, which evolved completely independently from our own.

Let's consider their nervous system. Like us, octopus have large brains compared to their body size – easily the biggest of all invertebrates (animals without a backbone) and of comparable size to many vertebrates, such as frogs.

It is, however, hard to compare brain size between marine animals and land animals, because the laws of physics differ in water and air. Animals are weightless in water but on land body shape and size is limited by gravity. An octopus brain is made up of about 500 million brain cells (neurons). This is seven times more than a mouse and about the same as a marmoset monkey. Humans, on the other hand, have 86 billion brain cells.

Testing octopus intelligence can be a problem, because the animals frequently outsmart scientists. For example, scientists can struggle to get an octopus to solve a maze, because they often climb out and crawl over the top to reach their food reward. And that's assuming they haven't already escaped from their aquarium home and are crawling around the lab.

Unlike us though, octopuses don't live for very long. The giant Pacific octopus might live up to five years, but most live for just a year and some as little as six months. They hatch from eggs fully formed and ready to go. They never see their parents and have to learn everything on their own.

SubQuestion No : 16

Q.16 A marmoset monkey has _____ brain cells.

- Ans**
- ☒ A. 78 million
 - ☒ B. 86 billion
 - ☒ C. about 500 million
 - ☒ D. less than 86 million

Comprehension:

Read the following information carefully and answer the given questions.

Octopuses are famous for their alien-like abilities, from regrowing damaged arms to changing their skin colour and texture. They use this colour-shifting power to camouflage and, interestingly, as a strange visual language to talk to other octopuses.

A little known fact is they actually belong to a category of animals (phylum) called Mollusca, which is largely made up of snails. Yep, octopuses are like souped-up snails who lost their shells and grew a rather large brain. The greatest thing about them is their intelligence, which evolved completely independently from our own.

Let's consider their nervous system. Like us, octopus have large brains compared to their body size – easily the biggest of all invertebrates (animals without a backbone) and of comparable size to many vertebrates, such as frogs.

Comprehension:

एक गद्यांश दिया गया है। गद्यांश के आधार पर पाँच प्रश्न दिए गए हैं। गद्यांश को ध्यानपूर्वक पढ़ें तथा प्रत्येक प्रश्न के चार विकल्पों में से सही विकल्प चुने।

परसाई जी की रचना 'भोलाराम का जीव' एक व्यंग्य रचना है। इस रचना में लेखक ने एक मनुष्य की आत्मा के लुप्त हो जाने की घटना के माध्यम से शासकीय व्यवस्था, घूसखोरी जड़ता और यथार्थ का उद्घाटन किया है। यह कहानी सतही तौर पर एक व्यक्ति की व्यथा कथा दिखाई देती है, जो भ्रष्टाचार की चक्की में पिस रहा है, परन्तु इस कथा के पीछे लेखक की मानवीय करुणा और सामाजिक यथार्थ के प्रति आक्रोश झलकता है।

यह रचना स्वातन्त्र्योत्तर भारत के सामाजिक यथार्थ की सशक्त प्रस्तुति है। एक मामूली सरकारी कर्मचारी रिटायर हो गया और पाँच साल तक पेंशन के लिए चक्कर लगाते-लगाते मर गया। उसके जीव को लेने जब यमदूत गया तो जीव यमदूत को चकमा देकर ऐसा गायब हुआ कि बहुत खोजने पर भी नहीं मिला। आखिरकार जब नारद जी उसे ढूँढ़ते हुए स्वयं धरती पर आए तो वह जीव अपनी पेंशन फाइल में अटका हुआ पाया गया। आश्चर्य यह था कि नारद जी के कहने पर भी वह स्वर्ग में जाने को तैयार नहीं, क्योंकि उसका मन अपनी पेंशन फाइलों में ही अटक गया है। कहानी के माध्यम से परसाई जी यह बताना चाहते हैं कि जिस भ्रष्टाचार से आज हम दबे हुए हैं वह इतना सर्वव्यापी है कि आज उसकी पहुँच अलौकिक हो गई। इस कहानी के प्रारम्भ में ही लेखक स्वर्ग और नरक की दिव्यता अलौकिकता का मिथक तोड़ देते हैं।

मिथक तोड़ते हुए वे कहते हैं कि कुछ भी जीवन के बाहर नहीं है और जीवन से अधिक सत्य कुछ भी नहीं है। जिस अलौकिकता को आधार बनाकर धर्म के पुरोहित-पण्डे लोगों को ठगते हैं उस अलौकिकता को.. प्रारम्भ में ये वाक्य धराशायी कर देते हैं। यह मनुष्य की जय का गान है, क्योंकि परसाई जी की विचारधारा मानती है कि मनुष्य से बड़ा कुछ भी नहीं है। इस कहानी की शैली और भाषा अत्यधिक सरल व स्पष्ट है। इस कहानी का उद्देश्य भ्रष्टाचार की कथा कहना। भ्रष्टाचार कितना सनातन है, यह परसाई जी ने इस कहानी के माध्यम से स्पष्ट रूप से दिखाया है।

SubQuestion No : 16
