Q.1 How many cars are scooter, but not bus?

AVNISH SHARMA

- Ans ☒ A. 26
☒ B. 76
☒ C. 8
☒ D. 18

Question ID : 1034357597

Q.2 Two adjacent faces of a solid cube are painted with black colour. The faces opposite to the black faces is painted with blue colour while the remaining faces are painted with yellow colour. After painting, this cube has been divided into 125 equal cubes. How many cubes have no faces painted?

- Ans ☒ A. 24
☒ B. 27
☒ C. 35
☒ D. 8

Question ID : 1034357603

Q.3 In the following question below are given some statements followed by some conclusions based on those statements. Taking the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusion logically follows the given statements.

Statements:

I. Some A are B.

II. All B are C.

III. No A is D.

Conclusions:

I. Some B are C.

II. Some B are not D.

III. Some D are not C.

Ans ☒ A. Both conclusion I and II follows

☐ B. Both conclusion I and III follows

☐ C. All conclusion follows

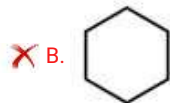

☐ D. Both conclusion II and III follows

Question ID : 1034357594

Q.4 Which figure is similar to the given figures?

Ans

AVNISH SHARMA

Question ID : 1034357601

Q.5 In the following question, select the odd word from the given alternatives.

Ans ☒ A. Rat

☐ B. Chameleon

☐ C. Lizard

☐ D. Crocodile

Q.6 In a certain code language, 'SLOWERS' is written as 'VUHZROV'. What is the code for 'NATURAL' in that code language?

- Ans ☒ A. ODUYWDQ
☒ B. ODUXXDQ
☒ C. ODUYXDQ
☒ D. ODUXWDQ

Question ID : 1034357589

Q.7 Rohit walks 40 metre. He turns to the left and walks 30 metre. He turns to the right and walks 35 metre. He again turns to the right and walks 60 metre. Finally, he turns to the right and walks 115 metre. Which of the following statement is correct?

- I. The distance between starting point and finishing point is 40 metre.
 II. If now Rohit is facing towards the east, then he would have started walking towards the west.

- Ans ☒ A. Neither I nor II
☒ B. Only I
☒ C. Both I and II
☒ D. Only II

Question ID : 1034357600

Q.8 Arrange the given words in the sequence in which they occur in the dictionary.

1. Kaiser
2. Kasakas
3. Kabalas
4. Kakapos
5. Kababs

- Ans ☒ A. 53214
☒ B. 53142
☒ C. 52341
☒ D. 53241

Question ID : 1034357584

Q.9 In the following question, a group of letters is given. The letters of each group are related with the letters of the same group by some Logic/Rule/Relation. From the given alternatives, select a group of letters which follows the same Logic/Rule/Relation. (BQ, VW, PC)

- Ans ☒ A. (LD, FJ, AP)
☒ B. (MG, GM, BS)
☒ C. (ZF, TL, NT)
☒ D. (EP, YV, SB)

Question ID : 1034357588

Q.10 A series is given with one term wrong. Select that wrong term from the given alternatives.
132, 67, 68, 103, 207, 518

- Ans ☒ A. 67
☒ B. 132
☒ C. 207
☒ D. 518

Question ID : 1034357596

Q.11 Based on the given venn diagram, which of the following statement(s) is/are correct?
I. The number of walls which are not poem is 46.
II. The number of poems which are not poet is 71.

- Ans ☒ A. Only II
☒ B. Only I
☒ C. Both I and II
☒ D. Neither I nor II

Question ID : 1034357598

Q.12 Pointing to a man in a photograph, Sita said, "He is the only brother of my mother". How is that man related to Sita?

- Ans ☒ A. Uncle
☒ B. Brother
☒ C. Son
☒ D. Father

AVNISH SHARMA

Question ID : 1034357590

Q.13 In the following question, select the related letters from the given alternatives.
NC : PD :: PR : ?

- Ans ☒ A. QS
☒ B. RQ
☒ C. QT
☒ D. RS

Question ID : 1034357587

Q.14 How many triangles are there in the given figure?

- Ans ☒ A. 8
☒ B. 9
☒ C. 7
☒ D. 10

Question ID : 1034357602

Q.15 In the following question below are given some statements followed by some conclusions based on those statements. Taking the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusion logically follows the given statements.

Statements:

I. Some D are R.

II. No R is P.

Conclusions:

I. Some D are not P.

II. Some P are not D.

Ans ☒ A. Neither conclusion follows

☒ B. Only conclusion I follows

☒ C. Both conclusion I and II follows

☒ D. Only conclusion II follows

Question ID : 1034357593

Q.16 A team of six members is to be selected among nine members M1, M2, M3, M4, M5, M6, M7, M8 and M9. M3 and M7 have to be selected together. M4 and M8 cannot be selected together. Either M2 or M5 has to be selected with M7. Neither M1 nor M6 can be selected with M9. Which of the following members can be selected?

Ans ☒ A. M1, M2, M4, M5, M6, M8

☒ B. M1, M3, M5, M6, M7, M9

☒ C. M1, M2, M3, M4, M6, M7

☒ D. M2, M3, M5, M6, M8, M9

Question ID : 1034357591

Q.17 A series is given with one term wrong. Select that wrong term from the given alternatives.
DSL, WNR, PIX, IDC, BYJ, UTP

Ans ☒ A. BYJ

☒ B. PIX

☒ C. IDC

☒ D. UTP

Question ID : 1034357585

Q.18 If North becomes North-west and South-east becomes east, then, what will West become?

Ans ☒ A. South-west

☒ B. East

☒ C. North-east

☒ D. South

Question ID : 1034357599

Q.19 Five boys A, B, C, D and E eat five different types of food F1, F2, F3, F4 and F5 (not necessarily in the same order). Each also likes a different bird namely B1, B2, B3, B4 and B5 (not necessarily in the same order). B eats F2. A does not like B3. E eats F1, but he does not like B1 or B2. C does not eat F4, but he likes B5. The one who eats F3, likes B3. B does not like B2. Which of the following statements are correct?

I. A likes B2.

II. C eats F5.

III. E likes B4.

Ans ☒ A. II and III

☒ B. I and II

☒ C. I and III

☒ D. I, II and III

Question ID : 1034357592

Q.20 In the following question, select the number which can be placed at the sign of question mark (?) from the given alternatives.

Ans ☒ A. 95

☒ B. 85

☒ C. 91

☒ D. 81

To put heads together

- Ans ☒ A. To share the responsibilities
☒ B. To destroy the work
☒ C. To put no effort
☒ D. To consult together

Question ID : 1034357657

Comprehension:

Read the following information carefully and answer the given questions.

The history of hypnosis is as ancient as that of sorcery, magic, and medicine; indeed, hypnosis has been used as a method in all three. Its scientific history began in the latter part of the 18th century with Franz Mesmer, a German physician who used hypnosis in the treatment of patients in Vienna and Paris. Because of his mistaken belief that hypnotism made use of an occult force (which he termed "animal magnetism") that flowed through the hypnotist into the subject, Mesmer was soon discredited; but Mesmer's method—named mesmerism after its creator—continued to interest medical practitioners. A number of clinicians made use of it without fully understanding its nature until the middle of the 19th century, when the English physician James Braid studied the phenomenon and coined the terms hypnotism and hypnosis, after the Greek god of sleep, Hypnos. Hypnosis attracted widespread scientific interest in the 1880s. Ambroise-Auguste Liébeault, an obscure French country physician who used mesmeric techniques, drew the support of Hippolyte Bernheim, a professor of medicine at Strasbourg. Independently they had written that hypnosis involved no physical forces and no physiological processes but was a combination of psychologically mediated responses to suggestions. During a visit to France at about the same time, Austrian physician Sigmund Freud was impressed by the therapeutic potential of hypnosis for neurotic disorders. On his return to Vienna, he used hypnosis to help neurotics recall disturbing events that they had apparently forgotten. As he began to develop his system of psychoanalysis, however, theoretical considerations—as well as the difficulty he encountered in hypnotizing some patients—led Freud to discard hypnosis in favour of free association. Despite Freud's influential adoption and then rejection of hypnosis, some use was made of the technique in the psychoanalytic treatment of soldiers who had experienced combat neuroses during World Wars I and II. Hypnosis subsequently acquired other limited uses in medicine. Various researchers have put forth differing theories of what hypnosis is and how it might be understood, but there is still no generally accepted explanatory theory for the phenomenon.

Comprehension:

Read the following information carefully and answer the given questions.

The history of hypnosis is as ancient as that of sorcery, magic, and medicine; indeed, hypnosis has been used as a method in all three. Its scientific history began in the latter part of the 18th century with Franz Mesmer, a German physician who used hypnosis in the treatment of patients in Vienna and Paris. Because of his mistaken belief that hypnotism made use of an occult force (which he termed "animal magnetism") that flowed through the hypnotist into the subject, Mesmer was soon discredited; but Mesmer's method—named mesmerism after its creator—continued to interest medical practitioners. A number of clinicians made use of it without fully understanding its nature until the middle of the 19th century, when the English physician James Braid studied the phenomenon and coined the terms hypnotism and hypnosis, after the Greek god of sleep, Hypnos. Hypnosis attracted widespread scientific interest in the 1880s. Ambroise-Auguste Liébeault, an obscure French country physician who used mesmeric techniques, drew the support of Hippolyte Bernheim, a professor of medicine at Strasbourg. Comprehension:

एक गद्यांश दिया गया है। गद्यांश के आधार पर पाँच प्रश्न दिए गए हैं। गद्यांश को ध्यानपूर्वक पढ़ें तथा प्रत्येक प्रश्न के चार विकल्पों में से सही विकल्प चुने।

'मैला ऑचल' हिन्दी का प्रतिनिधि आंचलिक उपन्यास है और इस कारण इसके कथ्य में प्रायः वे सारी विशेषताएँ मिलती हैं, जो किसी भी आंचलिक उपन्यास में पाई जाती हैं। आंचलिक उपन्यास में जो परिवेश लिया जाता है, वह समय और स्थान के जीवन के जितने पक्ष हो सकते हैं, उन पक्षों के जितने चेहरे हो सकते हैं, वे सब उसमें पूरे विस्तार के साथ विद्यमान होते हैं। मैला ऑचल भी ऐसे ही कथ्य को धारण करता है।

मैला ऑचल' में 'मेरीगंज' गाँव की विस्तृत तथा समग्र कथा को इस प्रकार प्रस्तुत किया गया है कि ऑचल ही नायक बन गया है। इस उपन्यास का उद्देश्य ऑचल की समस्याओं को प्रकाशित करने का ही रहा है, हालाँकि उद्देश्य रचना प्रक्रिया में घुला हुआ है। इसमें ऑचल की सुन्दरता व कुरूपता दोनों का गहरा चित्रण किया गया है। इसमें जातिवाद, अफसरशाही, अवसरवादी राजनीति, मठों और आश्रमों का पाखण्ड भी दिखाया गया है। रेणु जी का मैला ऑचल वस्तु और शिल्प दोनों स्तरों पर सबसे अलग है। इसमें एक नए शिल्प में ग्रामीण जीवन को दिखाया गया है।

इसकी सबसे बड़ी विशेषता यह है कि इसका नायक कोई व्यक्ति नहीं है, अपितु पूरा का पूरा ऑचल ही इसका नायक है। दूसरी प्रमुख बात यह है कि मिथिलांचल की पृष्ठभूमि पर रचे इस उपन्यास में उस ऑचल की भाषा विशेष का अधिक से अधिक प्रयोग किया गया है और यह प्रयोग इतना सार्थक है कि वह वहाँ के लोगों की इच्छा-आकांक्षा, रीति-रिवाज, पर्व-त्योहार, सोच-विचार को पूरी प्रामाणिकता के साथ पाठक के सामने उपस्थित करता है।

'रेणु' का 'मेरीगंज' गाँव जीवन्त रूप में हमारे सामने है, जिसमें वहाँ के लोगों का हँसी-मज़ाक, प्रेम-घृणा, सौहार्द-वैमनस्य, ईर्ष्या-द्वेष, संवेदना-करुणा, सम्बन्ध शोषण आदि को पूरे उतार-चढ़ाव के साथ उकेरा गया है। इसमें जहाँ एक ओर नैतिकता के प्रति तिरस्कार का भाव है, तो वहीं दूसरी ओर नैतिकता के लिए छटपटाहट भी है। साथ ही परस्पर विरोधी मान्यताओं के बीच कहीं-न-कहीं जीवन के प्रति गहरी आस्था भी है।

SubQuestion No : 16

Q.16 "मैला ऑचल" उपन्यास में किस गाँव की विस्तृत तथा समग्र कथा को प्रस्तुत किया गया है?

- Ans ☒ A. पूर्णिया
☒ B. बेलौरी
☒ C. मेरीगंज
☒ D. सातकोदरा
