Q.5 In a certain code language,
'traders are trading gold' is '1 2 3 4'
'they are in demand' is '4 5 6 7'
'demand dollars for gold' is '1 5 8 9'
'traders pay in dollars' is '2 6 9 10'
What is the code for 'pay'?

Ans ☒ A. 10

☒ B. 5

☒ C. 9

☒ D. 6

Question ID : 75322911954

Q.6 Among Sanjay, Kumar, Mohan, Arjun, Ratan; Sanjay is shorter than Kumar but taller than Ratan. Mohan is the tallest. Arjun is a little shorter than Kumar but a little taller than Sanjay. Who has two persons shorter and taller than him among the five?

- Ans ☒ A. Kumar
☒ B. Arjun
☒ C. Ratan
☒ D. Sanjay

Question ID : 75322911956

Q.7 Select the option that is related to the third term on the same basis as the second term is related to the first term.
 $8 : 32 :: 16 : ?$

- Ans ☒ A. 36
☒ B. 312
☒ C. 128
☒ D. 256

Question ID : 75322911960

Q.8 The given Venn diagram shows urban people, males, civil staff, educated people. Which number represents educated males who do not live in urban area?

- Ans ☒ A. 11
☒ B. 4
☒ C. 9
☒ D. 5

Question ID : 75322911962

Q.9 Out of the given options, three are similar in a certain manner. However, one option is NOT like the other three. Select the option which is different from the rest.

- Ans ☒ A. 11 - 13
☒ B. 31 - 35
☒ C. 11 - 17
☒ D. 23 - 29

Question ID : 75322911961

Q.10 In the question two statements are given, followed by two conclusions, I and II. You have to consider the statements to be true even if it seems to be at variance from commonly known facts. You have to decide which of the given conclusions, if any, follows from the given statements.

Statement 1 : All copies are novels.

Statement 2 : Some novels are plays.

Conclusion I : Some copies are plays

Conclusion II : Some plays are novels

- Ans
- ☒ A. Only conclusion I follows
 - ☒ B. Both conclusion I and II follow
 - ☒ C. Either conclusion I or II follows
 - ☒ D. Only conclusion II follows

Question ID : 75322911958

Q.11 In the question two statements are given, followed by two conclusions, I and II. You have to consider the statements to be true even if it seems to be at variance from commonly known facts. You have to decide which of the given conclusions, if any, follows from the given statements.

Statement 1 : Best performance in Olympics fetches a gold medal.

Statement 2 : Ajay got gold medal but later was found to be using prohibited drug.

Conclusion I : Ajay should be allowed to keep the gold medal.

Conclusion II : Gold medal should be withdrawn and given to the next person in the ranking.

- Ans
- ☒ A. Both conclusion I and II follow
 - ☒ B. Only conclusion I follows
 - ☒ C. Either conclusion I or II follows
 - ☒ D. Only conclusion II follows

Question ID : 75322912013

Q.15 Select the word segment that substitutes (replaces) the bracketed word segment correctly and completes the sentence meaningfully. Select the option 'no correction required' if the sentence is correct as given.

(She replied with a slight break in her voice, "No, I haven't seen him from) lunchtime."

- Ans ☒ A. She replied that, "No, I haven't seen him since
☒ B. She replied in a breaking voice, "No, I haven't seen him from
☒ C. No correction required
☒ D. She replied with a slight break in her voice, "No, I haven't seen him since

Question ID : 75322912011

Comprehension:

Read the passage carefully and choose the best answer to each question out of the four alternatives.

The Brazil nut tree is one of the Amazon's longest living trees, of an age of 1,000 years. Its flowers depend on bees for pollination. Once pollinated, a coconut-sized seed containing some tiny 20 seeds, develops for over 15 months before falling to the forest floor. They are found exclusively in Amazon forests and harvesting is exhausting, even for the strong. Apart from bees and the Brazil nut harvesters, the life of many other plants and animals is intertwined with this tree. The empty seeds fill with rainwater and provide breeding grounds for flies, frogs, all of which depend on these small ponds on the forest floor. The major threat to the trees is forest clearing. Sustainable harvesting of Brazil nuts is therefore vital way to provide protection of forests and saving the Amazon.

SubQuestion No : 16

Q.16 According to the passage, who/ what causes the process of forest clearing?

- Ans ☒ A. Naturally reducing life span of the trees
☒ B. Disease inducing parasites
☒ C. Climatic changes
☒ D. Human deforestation activities

Question ID : 75322912026

Comprehension:

Read the passage carefully and choose the best answer to each question out of the four alternatives.

The Brazil nut tree is one of the Amazon's longest living trees, of an age of 1,000 years. Its flowers depend on bees for pollination. Once pollinated, a coconut-sized seed containing some tiny 20 seeds, develops for over 15 months before falling to the forest floor. They are found exclusively in Amazon forests and harvesting is exhausting, even for the strong. Apart from bees and the Brazil nut harvesters, the life of many other plants and animals is intertwined with this tree. The empty seeds fill with rainwater and provide breeding grounds for flies, frogs, all of which depend on these small ponds on the forest floor. The major threat to the trees is forest clearing. Sustainable harvesting of Brazil nuts is therefore vital way to provide protection of forests and saving the Amazon.

SubQuestion No : 17

Q.17 What is described as the average lifespan of a Brazil nut tree?

- Ans ☒ A. 10 years
☒ B. 10000 years
☒ C. 100 years
☒ D. 1000 years

Question ID : 75322912027

Comprehension:

Read the passage carefully and choose the best answer to each question out of the four alternatives.

The Brazil nut tree is one of the Amazon's longest living trees, of an age of 1,000 years. Its flowers depend on bees for pollination.
