गद्यांश के आधार पर प्रश्नों के उत्तर दें।

मनुष्य के पास समस्त जगत को देखने-परखने के दो नजरिये हैं, एक आशावादी और दूसरा निराशावादी। इसे सकारात्मक और नकारात्मक दृष्टि भी कह सकते हैं। जो आशावादी होते हैं, वे सकारात्मकता के साथ जीवन-मार्ग पर चलते हैं और आनंद की अनुभूति प्राप्त करते हैं। किन्तु जिनकी दृष्टि निराशावादी और नकारात्मक होती है, वे दुखों और कुंठाओं का पुंज बनते चले जाते हैं। उनका जीवन दुःख के सागर में परिवर्तित होता चला जाता है। वे जिस वस्तु खो बैठते हैं, वह होती है आशा, जो गतिशील होने की पहले शर्त कही जाती है। निराशावादी व्यक्ति अपनी दुखों से भरी जिंदगी के तर्क नहीं असल में कुतर्क प्रस्तुत करता है। वह भूल जाता है कि कुतर्क उसे क्षणिक सांत्वना तो प्रदान कर सकते हैं, स्थायित्व और आत्मिक आनंद नहीं। इसके ठीक विपरीत जीवन में विकृति उत्पन्न करने वाली नकारात्मक दृष्टि से दूर सकारात्मक दृष्टि से संपन्न व्यक्ति न केवल अपने जीवन को आनंद और सार्थकता की दिशा में गतिवान बनाता है, अपितु समाज को भी दिशा और प्रेरणा प्रदान करता है।

Read the passage and answer the given questions.

Since the world has become industrialised, the number of animal species that have either become extinct or are nearing extinction has increased. The Bengal tiger, for instance, which once roamed the jungle in vast numbers, now has a population of only 2,300. By the year 2025, this number is projected to drop to zero. What is particularly alarming about the case of the Bengal tiger is that its extinction will have been caused almost entirely by poachers who, according to some sources, are motivated not by material gain but by personal gratification. This reflects a disturbing level of callousness that contributes significantly to the problem of extinction. Animals like the Bengal tiger, along with other endangered species, are vital components of the world's ecosystem. International laws protecting these animals must be enacted and enforced to ensure their survival and, ultimately, the survival of our planet.

Countries around the world have begun to address the problem in various ways. Some nations, in an effort to circumvent the issue, have allocated large areas of land for animal reserves. They charge admission to help defray the costs of maintaining these parks and often rely on support from international organisations as well. With the funds they receive, they can invest in equipment and patrols to protect the animals. Another solution aimed at stemming the tide of animal extinction is an international boycott of products made from endangered species. This measure appears to be fairly effective, but it will not, on its own, prevent animals from being hunted and killed.
