Comprehension:

दिए गए गद्यांश के आधार पर निम्नांकित प्रश्नों के उत्तर दीजिए--

आधुनिक हिंदी कविता में 'प्रयोगवाद' का जन्म छायावाद की अतिशय अशरीरी कल्पना, सूक्ष्मतावादी सौंदर्य-बोध और एकांगिता के विरोध से हुआ। ऐतिहासिक दृष्टि से 'प्रयोगवाद' का आरम्भ अज्ञेय के सम्पादकत्व में निकलने वाले काव्य संग्रह 'तारसप्तक' से हुआ। तारसप्तक में विविध विचारधाराओं के कवि एक साथ एकत्रित हुए जिनमें अज्ञेय को छोड़कर ज़्यादातर कवि प्रगतिशील विचारधारा के समर्थक थे। किंतु प्रयोगवाद नाम इस काव्य-प्रवृत्ति के विरोधियों द्वारा दिया गया है। अज्ञेय ने 'प्रगतिवाद' से असंतुष्ट होकर होकर 'व्यक्ति स्वातंत्र्य सिद्धांत' की स्थापना का अभियान 'प्रयोगवाद' में चलाया। प्रगतिशील साहित्य में साहित्येतर मूल्यों को स्थान मिला था- किंतु 'प्रयोगवाद' साहित्यिक मूल्यों को केंद्र में रखकर आगे बढ़ा। 'प्रयोग' शब्द अंग्रेज़ी के 'एक्सपेरिमेंट' का हिंदी पर्याय है और इसका संबंध विज्ञान के 'प्रयोग' से न होकर आधुनिक चित्रकला के 'प्रयोग' से है। 'प्रयोगवाद' के प्रवर्तन का सच्चा श्रेय अज्ञेय जी को ही मिला और इस कविता के स्वरूप को जानने के लिए 'तारसप्तक' (1943), 'दूसरा सप्तक' (1951), और 'तीसरा सप्तक' (1959) को आधार बनाया जाता है। अज्ञेय ने 'चौथा सप्तक' भी निकाला पर इसे 'उपेक्षित' कहकर नकार दिया गया। सम्पादक ने न केवल इक्कीस कवियों को एकत्र किया बल्कि हर कवि ने अपने काव्य पर 'वक्तव्य' भी दिए। संकलनकर्ता और संपादक अज्ञेय को 'तारसप्तक' से सम्मान और विवाद दोनों मिले।

SubQuestion No : 16

Q.16 'प्रयोगवाद' के संदर्भ में निम्न में से असत्य कथन है--

- Ans ☒ 1. प्रयोगवाद ने साहित्यिक मूल्यों को अपने केंद्र में रखा।

Urban gardening has emerged as a practical and sustainable solution to the challenges posed by rapid urbanisation. As cities continue to grow, they face mounting issues such as food insecurity, air pollution, declining green spaces, and rising temperatures. Urban gardening, which involves cultivating fruits, vegetables, and herbs in small spaces such as rooftops, balconies, and community gardens, offers a way to counter these problems. It transforms unused or underutilised spaces into productive green areas, thereby contributing to environmental sustainability.

In addition to providing fresh and nutritious produce, urban gardening has mental health benefits, reduces the urban heat island effect, and strengthens social bonds among city dwellers. These gardens serve as educational tools, especially for children, by promoting awareness about nutrition, ecology, and biodiversity. Recognising these advantages, local governments and NGOs are increasingly supporting such initiatives through grants, training programs, and policy support. However, urban gardening also faces hurdles like limited space, poor soil quality, water scarcity, and a lack of gardening knowledge among residents. Overcoming these barriers requires community involvement, education, and integration with smart urban planning. Despite these challenges, the growing interest in sustainable living and environmental stewardship suggests that urban gardening will play a vital role in shaping the green cities of the future.

It transforms unused or underutilised spaces into productive green areas, thereby contributing to environmental sustainability.

In addition to providing fresh and nutritious produce, urban gardening has mental health benefits, reduces the urban heat island effect, and strengthens social bonds among city dwellers. These gardens serve as educational tools, especially for children, by promoting awareness about nutrition, ecology, and biodiversity. Recognising these advantages, local governments and NGOs are increasingly supporting such initiatives through grants, training programs, and policy support. However, urban gardening also faces hurdles like limited space, poor soil quality, water scarcity, and a lack of gardening knowledge among residents. Overcoming these barriers requires community involvement, education, and integration with smart urban planning. Despite these challenges, the growing interest in sustainable living and environmental stewardship suggests that urban gardening will play a vital role in shaping the green cities of the future.
