Question Number: 16 Question Id: 16794310008 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes

Single Line Question Option: No Option Orientation: Vertical

Correct: 1 Wrong: 0.25

In this question, two statements are given, which are followed by two conclusions numbered 1 and 2. Take the given statements to be true even if they seem to be at variance from commonly known facts. Read the conclusions and then decide which of the given conclusions logically follow(s) from the given statements, disregarding commonly known facts.

Statements:

All hints are answers. Some answers are questions.

Conclusions:

- All questions are hints.
- 2. Some hints are questions.

Options:

- Only conclusion 1 follows.
- Only conclusion 2 follows.
- Neither conclusion 1 and 2 follows.
- Both conclusions 1 and 2 follow.

Question Number: 16 Question Id: 16794310008 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical

Correct: 1 Wrong: 0.25

इस प्रश्न में, दो विधान दिए गए हैं, जिसके बाद दो 1 और 2 निष्कर्ष दिए गए हैं। दिए गए विधान को सत्य मानें, भले ही वे आमतौर पर ज्ञात तथ्यों से भिन्न हों। निष्कर्ष पढ़ें और फिर तय करें कि दिए गए निष्कर्षों में से कौन से निष्कर्ष तर्कसंगत रूप से दिए गए विधानों का अनुसरण करते हैं, आमतौर पर ज्ञात तथ्यों को अनदेखा करते हुए।

विधान:

सभी संकेत जवाब हैं। कुछ जवाब प्रश्न हैं।

निष्कर्षः

- 1. सभी प्रश्न संकेत हैं।
- 2. कुछ संकेत सवाल हैं।

- 🗼 केवल निष्कर्ष 1 अनुसरण करता है।
- 🎍 केवल निष्कर्ष 2 अनुसरण करता है।
- ्र न तो निष्कर्ष 1 न ही निष्कर्ष 2 अनुसरण करता है।

🎍 निष्कर्ष 1 एवं 2 दोनों अनुसरण करता हैं।

Correct: 1 Wrong: 0.25

The statement below is followed by two arguments labelled I and II. Read the arguments in relation with the statement and identify the strong argument.

Statement: Children under the age of 18 years should not be employed anywhere.

Argument I: The government should provide free food to all citizens who cannot afford it.

Argument II: Many families depend on the income of young adults from 14 to 18 years of age, and 14 is a good age to start earning in non-hazardous sectors.

Options:

- Only argument I is strong.
- Only argument II is strong.
- Both arguments I and II are strong.
- Either argument I or argument II is strong.

Question Number: 17 Question Id: 16794310009 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical

Correct: 1 Wrong: 0.25

नीचे दिए गए कथन के बाद । और ।। ऐसे दो तर्क हैं। कथन के संबंध में तर्क पढ़ें और बराबर तर्क की पहचान करें।

कथन: 18 वर्ष से कम उम के बच्चों को कहीं भी काम पर नहीं रखा जाना चाहिए।

तर्क I: जो नागरिक खर्चा नहीं उठा सकतें उन सभी को सरकार द्वारा मुफ्त भोजन प्रदान किया जाना चाहिए। तर्क II: कई परिवार 14 से 18 वर्ष की आयु के युवाओं की आय पर निर्भर करते हैं, और 14 वर्ष गैर-खतरनाक क्षेत्र में कमाई श्रूरू करने के लिए अच्छी उम है।

- 😦 केवल तर्क । दृढ़ हैं।
- केवल तर्क ॥ इढ़ हैं।
- 😦 तर्क । एवं ॥ दोनों इढ़ हैं।
- 😦 या तो तर्क I या तर्क II इढ़ हैं।

Question Number: 18 Question Id: 16794310010 Question Type: MCQ Option Shuffling: Yes Display Question Number: Yes Single Line Question Option: No Option Orientation: Vertical

Correct: 1 Wrong: 0.25

The statement below is followed by two conclusions labelled I and II. Assuming that the information in the statement is true, even if it appears at variance from generally established facts, decide which conclusion(s) logically and definitely follow(s) from the information given in the statement.

Statement: After giving up her medical practice of 35 years in the city hospital, Usha decided to learn classical dance.

Conclusion I: Usha is a medical practitioner who is passionate about dancing.

Conclusion II: Usha has stopped going to the hospital to see patients.

Options:

- Only conclusion I follows.
- Only conclusion II follows.
- Both conclusions I and II follow.
- Either conclusion I or conclusion II follows.

Read the following passage and answer the questions that follow.

The first medicine designed to prevent migraines was approved by the Food and Drug Administration on Thursday, ushering in what many experts believe will be a new era in treatment for people who suffer the most severe form of these headaches.

The drug, Aimovig, made by Amgen and Novartis, is a monthly injection with a device similar to an insulin pen. The list price will be \$6,900 a year, and Amgen said that the drug will be available to patients within a week.

Aimovig blocks a protein fragment, CGRP, that instigates and perpetuates migraines. Three other companies—Lilly, Teva and Alder—have similar medicines in the final stages of study or awaiting FDA approval.

"The drugs will have a huge impact," said Dr. Amaal Starling, a neurologist and migraine specialist at the Mayo Clinic in Phoenix. "This is really an amazing time for my patient population and for general neurologists treating patients with migraine."

Millions of people experience severe migraines so often that they are disabled and in despair. These drugs do not prevent all migraine attacks, but can make them less severe and can reduce their frequency by 50 per cent or more.

Until now, drugs used to prevent migraines were designed to treat other diseases, like high blood pressure. They are not very effective, may work only temporarily and often are laden with intolerable side effects.

In clinical trials, people taking the new drugs reported no more side effects than those taking a placebo.

One in seven people worldwide experience migraines, among them 37 million Americans — as many as 20 per cent of women, and 10 per cent of men.

About 2 percent of the global population copes with chronic migraines. By some estimates, migraine is the third most common disease in the world, and it ranks among the top ten causes of disability.

It is not just a headache; a migraine often is accompanied by disabling symptoms like nausea and vomiting, difficulty speaking and an aversion to light and noise. The headache can be throbbing and last for hours or days.

Read the following passage and answer the questions that follow.

The first medicine designed to prevent migraines was approved by the Food and Drug Administration on Thursday, ushering in what many experts believe will be a new era in treatment for people who suffer the most severe form of these headaches.

The drug, Aimovig, made by Amgen and Novartis, is a monthly injection with a device similar to an insulin pen. The list price will be \$6,900 a year, and Amgen said that the drug will be available to patients within a week.

Aimovig blocks a protein fragment, CGRP, that instigates and perpetuates migraines. Three other companies—Lilly, Teva and Alder—have similar medicines in the final stages of study or awaiting FDA approval.

"The drugs will have a huge impact," said Dr. Amaal Starling, a neurologist and migraine specialist at the Mayo Clinic in Phoenix. "This is really an amazing time for my patient population and for general neurologists treating patients with migraine."
